LUT BUSINESS SCHOOL

Foreword by the conference chairs

We are honored to welcome you to the 35th annual IPSERA Conference in Helsinki and Espoo, Finland, organized jointly by Aalto and LUT universities. This is the second time that the IPSERA Conference is in Finland. In 2010, LUT University organized the conference in Lappeenranta, and now 16 years later, we are happy to bring the conference back to Finland, and this time to Helsinki and Espoo.

The theme of the conference is *Less is more,* inspired by the need for purchasing and supply management to find sustainable and resilient solutions to global sustainability challenges related to the crossing of planetary boundaries. This theme is also a perfect merge of the two organizing schools' mottos: *Better business, better society* (Aalto BIZ) and *Land of the curious* (LUT). We apply the conference theme *Less is more* in how we organize the conference, by keeping printouts and other handouts to a minimum. But rest assured, it does not apply to our catering, where we want to keep you full with warm lunches and dinners!

We received a record number of 89 competitive paper submissions and a total of 267 submissions to the conference. In the final programme, we have 45 competitive papers, 130 working papers, 4 practitioner papers, and 6 professional development workshops.

We provide our heartfelt thanks to everyone who has contributed to the organization of this year's conference, particularly all authors, as well as everyone who contributed to reviewing the submissions. We would also especially like to thank our sponsor Sievo, as well as the Finnish foundations (Foundation for Economic Education, HSE Support Foundation, Vitako Foundation, Jenny and Antti Wihuri Foundation), who have contributed financially to support IPSERA 2026. With their support, we have raised a record amount of external financial support to create a successful conference for you!

Join us to enjoy the IPSERA spirit and the vibes of the happiest country in the world for the 9th consecutive year!

IPSERA 2026 Keynotes and panelists

The IPSERA 2026 conference is delighted to present one keynote speech, taking place on Monday in the conference opening session, and one practitioner panel discussion, taking place on Tuesday morning.

These special sessions bring our conference theme, "Less is more," to life. The keynote speech will explore questions of resource scarcity, sustainability, and innovative new solutions, while the practitioner panel discussion will bring together practical and academic perspectives to discuss the role of digitalization in supporting and creating more sustainable purchasing and supply management.

Keynote speech – Monday 20 April, 9-10

Resource shortfall and the future of energy: Supply chain and geopolitical implications of critical raw materials

Simon Michaux
Dr., Senior Scientist, Geological Survey of Finland (GTK), Mineral Economy Solutions Unit

Practitioner panel discussion – Tuesday 21 April, 10-11

"How can digitalization support sustainability in purchasing and supply management?"

Panelists:

Sammeli Sammalkorpi
CEO & Co-Founder, Sievo

Ulla Luhtasela
Director of Sustainability, Lindström Group

Alexei Gloukhovtsev
Senior University Lecturer, Aalto School of Business

Personal Development Workshops

PDW1 Un-taming the Supply Chain: Playing WILD in the Sandbox of Indigenous Knowledge

This workshop reimagines sustainable supply chain management education by integrating Indigenous Knowledge systems into teaching. Through a World Café format, we critically discuss how sustainability is currently taught, redefine what counts as Indigenous Knowledge, and identify capabilities needed for more inclusive curricula. Participants discuss biases, institutional barriers, and ways to connect Indigenous worldviews with global sustainability goals. The session emphasizes low-resource, high-impact approaches aligned with IPSERA 2026's "Less is More" theme. The workshop aims towards stronger educator networks, shared strategies for Indigenous Knowledge-inclusive SSCM education, and safer spaces for reflection, collaboration, and diverse stakeholder engagement across communities, universities, and future professional practice.

Organizers: Katie Kenny, Kate McLoughlin, Micheline Naude, Vincent Odhiambo

PDW2 The Craft of Qualitative Data Analysis in the AI Era: The Human Element

This workshop explores how qualitative research can remain rigorous and resilient amid the growing use of generative AI. It emphasizes that qualitative analysis depends on human interpretation, imagination, comparison, and sense-making, and encourages researchers to strengthen these capabilities. The session critiques the techno-optimistic narrative surrounding AI and commercial "qualAI" tools, examining their actual performance and limitations in qualitative analysis. It argues that inserting AI between researchers and their data risks undermining analytical craft, integrity, and theorizing by encouraging superficial, template-based thinking. Participants will learn strategies for distinguishing genuine insight from AI-generated output while preserving methodological reflexivity and quality in contemporary research practice.

Organizers: Rebecca Piekkari, Duc Nguyen, Catherine Welch, Emrecan Gülay, Aalto Qual+ Research Centre

PDW3 National public procurement strategies and the need for data to support government supply readiness systems

This PDW, organized by the Swedish Agency for Public Procurement and the Center for Security and Resilience at the Stockholm School of Economics, examines recent developments in strategic public procurement in Sweden and Finland. The workshop focuses particularly on supply readiness, including how public procurement can support crisis preparedness, resilient service delivery, and the participation of SMEs and reliable providers. Presentations will cover Sweden's new roadmap for public business, developments in Finland, and ongoing work to build a national supply readiness system using procurement data. Through panel discussions and audience interaction, the workshop seeks to identify emerging research priorities and strengthen collaboration between researchers and public agencies.

Organizers: Marjo Nevala Löfkvist and Staffan Movin

PDW4 Research project platform for longitudinal collaboration and relevant co-creation

This PDW explores how project platforms can support long-term collaboration and co-creation between researchers and practitioners in Purchasing and Supply Chain Management. Drawing on 17 years of experience across four project platforms and 22 research projects, the workshop demonstrates how longitudinal collaboration can generate rigorous, practically relevant research while attracting recurring funding. Participants will learn how sustained interaction with industry partners supports actionable knowledge creation, stronger research portfolios, and publishable outcomes. The workshop targets doctoral students and researchers interested in engaged and action-oriented research. Activities include sharing success stories, concept mapping, and practical advice for project applications and academic publishing.

Organizers: Jenny Bäckstrand and Anna Fredriksson

PDW5 Executive education on purchasing and supply management

This PDW explores executive education in purchasing and supply management, bringing together scholars and practitioners with varying levels of experience. The workshop provides an overview of executive education formats, including qualifications, open, customized, and consortium programs, and discusses how academics can contribute. Participants will reflect on their own strengths and possible paths into executive education, while comparing executive teaching with traditional university teaching. The session also presents the perspective of an executive education provider, including faculty recruitment and collaboration opportunities. Finally, recent discussions with Finnish companies are used to identify current competence needs and emerging topics in purchasing and supply management executive education.

Organizers: Max Finne, Tupuna Tapanainen, Ella Puoliväli

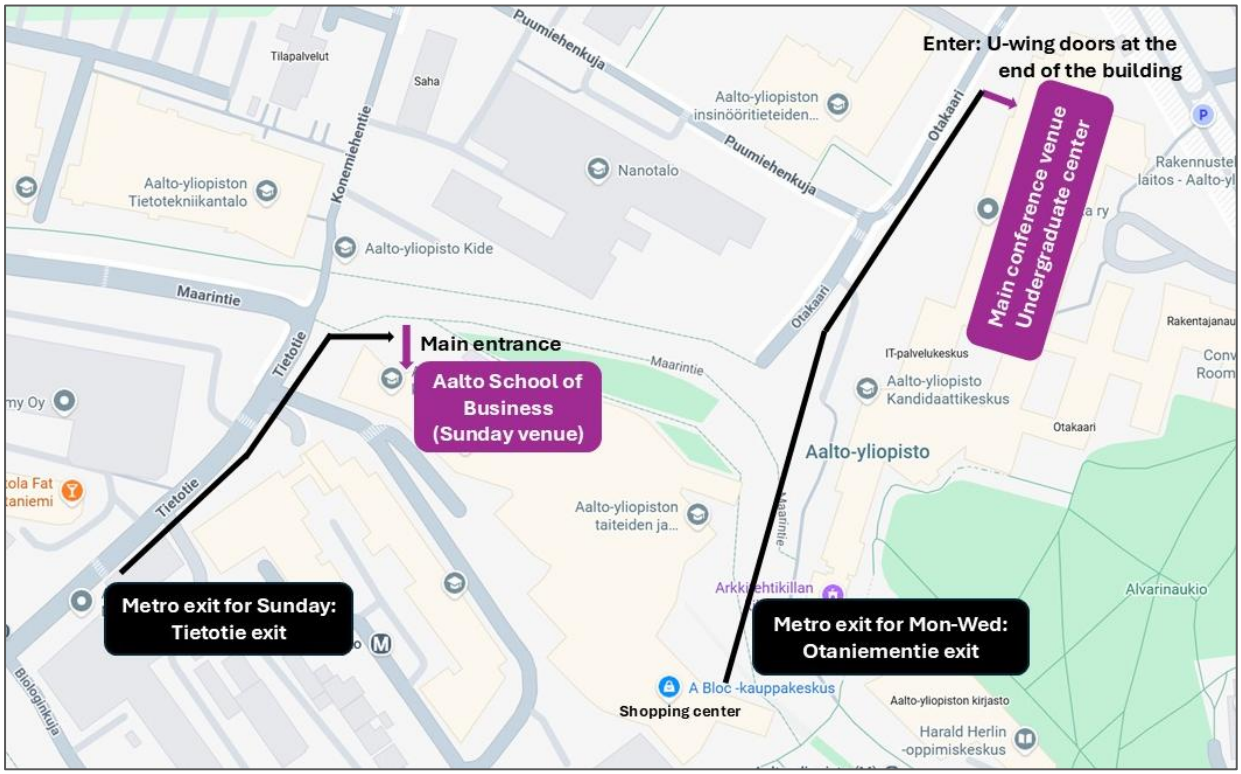

PDW6 From creative destruction to supplier relations: Reflecting on recent Nobel contributions and their message for purchasing and innovation (hybrid)

This PDW examines what recent Nobel Prize contributions by Joel Mokyr and Philippe Aghion / Peter Howitt imply for purchasing and supply management. Their work links innovation, institutions, and prosperity across macro, meso, and micro levels, making it especially relevant to purchasing research. Mokyr highlights how knowledge and institutions shape innovation, suggesting that purchasing influences firms' access to both through supplier collaboration. Aghion and Howitt's notion of creative destruction raises questions about whether long-term buyer–supplier relationships support or hinder innovation. The workshop combines short presentations and World Café discussions to explore how these ideas can inform future purchasing research.

Organizers: Holger Schiele, Katia Picaud-Bello, Hervé Legenvre, Romaric Servajean-Hilst

Site maps and conference venue information

Campus map and arrival instructions

Sunday venue for the Educators' workshop, Doctoral workshop, and Welcome reception:

Aalto University School of Business, Ekonominaukio 1, Espoo

- From Aalto University metro station, take the **Tietotie exit**: turn right and walk downhill along Tietotie (approx. 100 m) to Ekonominaukio (on your right-hand side).

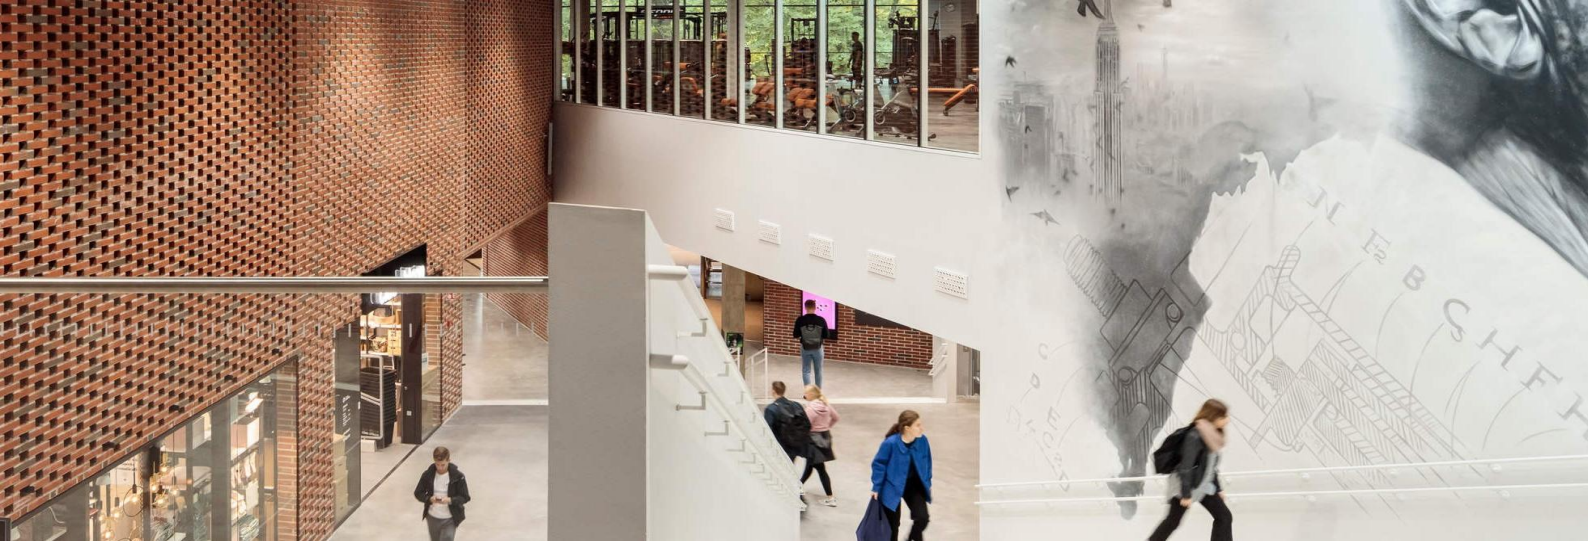

Venue for the main conference (Mon-Wed):

Aalto University Undergraduate Centre, U-wing, Otakaari 1, Espoo

- The U-wing is part of the extensive Undergraduate Centre complex located along the main road named Otakaari
- Use the **Otaniementie exit** from the Aalto University metro station
- Exit (next to the Espresso House) to the square and walk onwards over the tram tracks and along Otakaari. Do not enter from the main entrance to Otakaari 1 (the first set of doors), but continue along the building and enter from the U-wing doors.

See here the detailed instructions on arriving at the conference venue by metro.

IPSERA student assistants wearing yellow A! (Aalto) shirts are positioned along the way to help you find the conference location.

Services available on campus

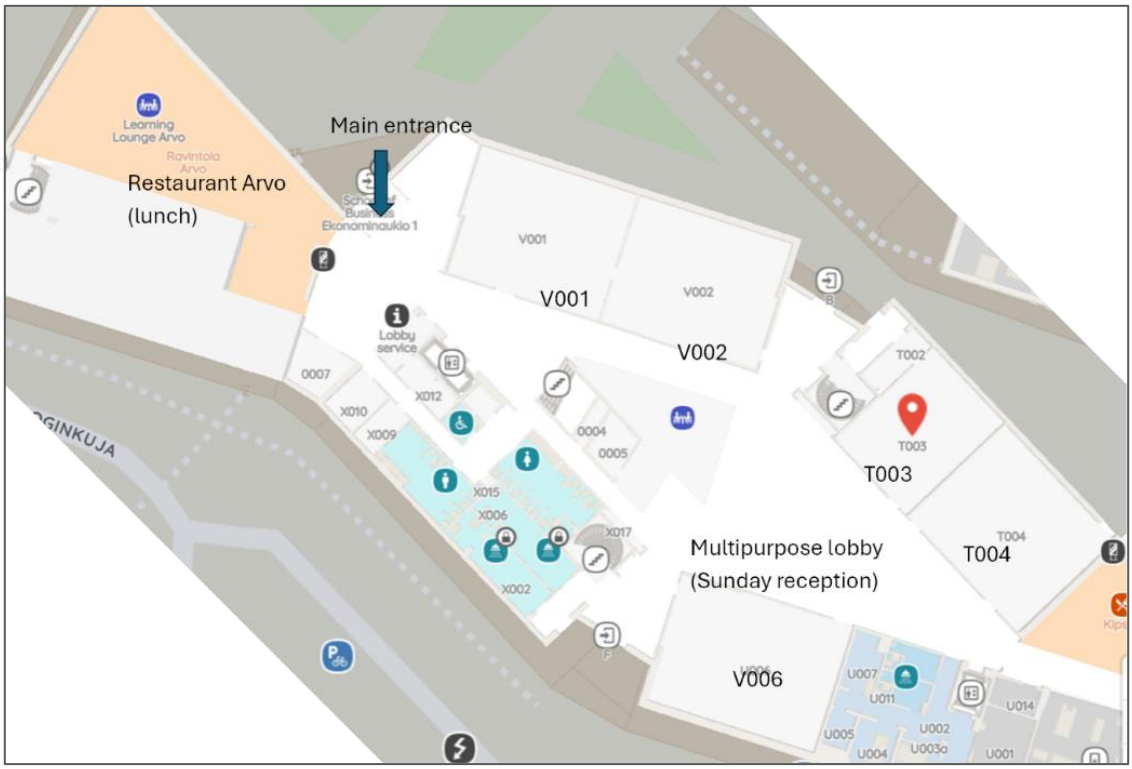

When you exit the metro using the **Otaniementie exit,** you come into the **ABloc shopping centre** (https://abloc.fi/en/). The shopping centre offers a range of services, including:

- Two small grocery stores
- Pharmacy
- Cafes
- Restaurants

Aalto space app

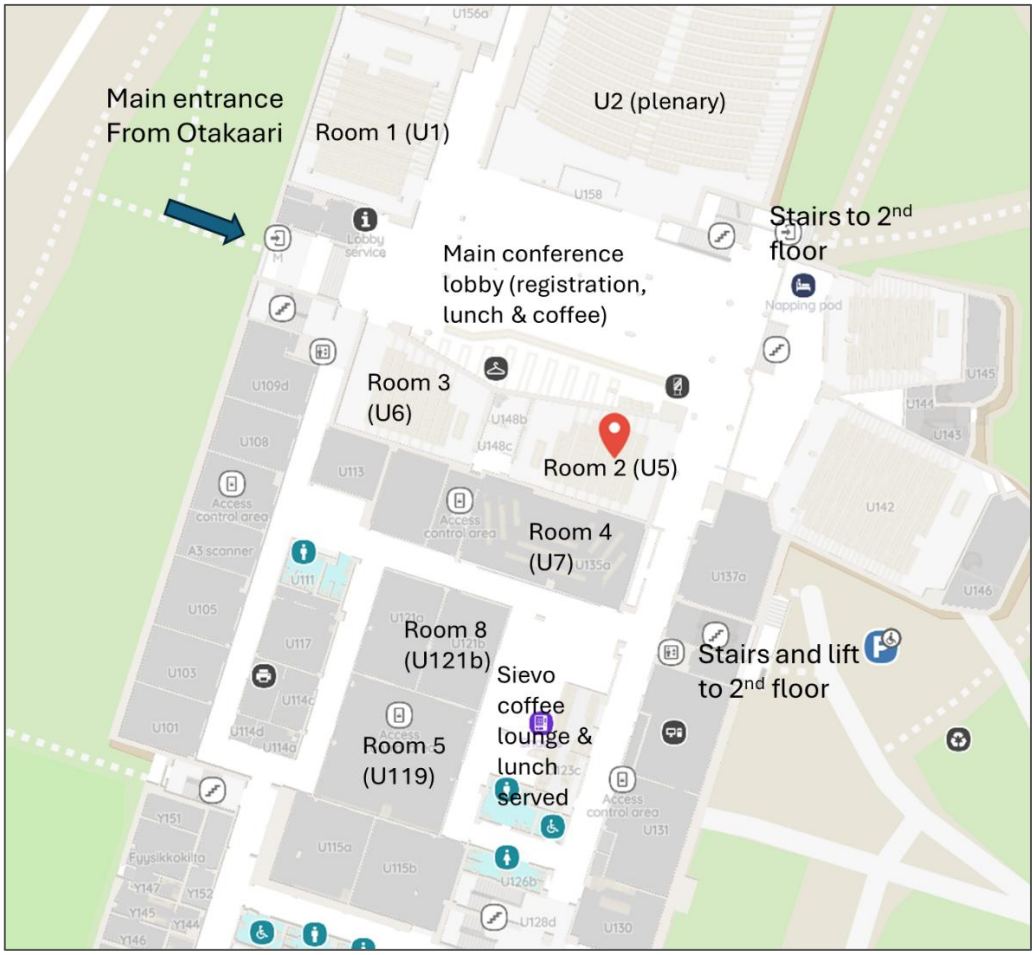

Aalto offers a mobile application that allows you to easily find your way to specific rooms within the different buildings. You can download it for free from the Apple App Store or Google Play (Search: Aalto Space). More information about the space app here: https://www.aalto.fi/en/services/aalto-space-mobile-application

Wi-Fi Aalto open

Aalto University offers free Wi-Fi throughout its buildings; the network is called "Aalto open" (unencrypted network). This network does not require a password or signing in. Eduroam is also available on campus (encrypted network).

Lunch breaks

On Sunday, lunch is served in Restaurant Arvo on the ground floor of the Business School building.

Monday to Wednesday lunch is served in both the main lobby and the Sievo coffee lounge (both located on the 1st floor of the Otakaari 1 U-wing). The lunch on Wednesday is in an easy "take-away" format if you already need to leave for the airport.

Coffee breaks

On Sunday, coffee is served in the multipurpose lobby on the ground floor of the Business School.

Monday to Wednesday, coffee is served during lunch and coffee breaks in the main lobby as well as the Sievo coffee lounge (both located on the 1st floor of the Otakaari 1 U-wing), as well as in the 2nd floor lounge outside the two session rooms on the 2nd floor.

Sievo coffee lounge on the 1st floor will serve coffee non-stop throughout Mon-Wed.

Photography during the event

The conference will be photographed for Aalto University and IPSERA communications and marketing purposes, and photos will also be shared with participants after the event. If you wish not to be in the photos, please inform the photographer during the event. See here the information on how we process data for university communications.

Social media

When posting about the event in social media channels, please remember to use #ipsera, #ipseraspirit, #ipsera2026 and when posting in LinkedIn, please tag @ipsera.

Social events of IPSERA 2026

Sunday evening welcome reception

We invite all IPSERA delegates to join us for the opening event on Sunday evening at the Aalto campus, where you can network with other delegates. The event will take place in the School of Business building, where the Doctoral Workshop and Educators' Workshop are held. The venue is easily accessible, located adjacent to the Aalto University metro station. Selection of salads, cocktail food, dessert, and drinks served.

Monday evening social event and dinner at Zetor

Welcome to the perfect finale of our first conference day—right here in Zetor, Helsinki's legendary 110% Finnish restaurant in the very heart of the city. Step inside and you will instantly see why Zetor is famous: it's a full-on tractor restaurant, brimming with rustic charm, playful humor, and a hearty dose of countryside nostalgia. This informal gathering is all about relaxing, enjoying good company, and diving into authentic Finnish flavors. Expect good food, refreshing drinks, karaoke, and a guaranteed boost of pure Finnish spirit. Remember to bring your name badge – it is your entry ticket.

Time: 19.00–21.30
Location: Restaurant Zetor, Mannerheimintie 3-5, Helsinki
Getting there: Zetor is located as central as can be, within a few minutes walk from most city centre hotels. The nearest metro station is Rautatieasema (Central Railway station), exit the station towards Mannerheimintie or Kaivokatu.

Tuesday evening gala dinner at Ravintola Töölö

We are happy to welcome IPSERA participants to the iconic banquet hall of the Aalto University Töölö campus, the old main building of the Aalto School of Business. The evening will begin with a welcome drink followed by a three-course seated dinner with wine. Prepare yourself for a joyful night of connections, awards, live music, and dancing together! Remember to bring your name badge – it is your entry ticket.

Time: 19:00–01.00
Location: Ravintola Töölö, Runeberginkatu 14–16, Helsinki
Getting there: The closest metro station is Kamppi, a 5-minute walk away. The venue is within 10 minutes walking distance from the city centre hotels. Trams 1 and 2 also stop next to the venue (exit at stop: Hanken).
